

## News Release

FOR IMMEDIATE RELEASE

### **Linear Adds Whole-House Intercom/Sound System to 2011 Builder Concept House**

#### ***Connectivity Integrates Linear Technologies***

**Carlsbad, CA (January 11, 2011)** – Linear LLC, is a prime contributor to the *KB Home Greenhouse™: An Idea Home Created with Martha Stewart*, a single story, 2,667-square-foot home in Windermere, Florida. The home -- designed to demonstrate new directions in technology, comfort, affordability and earth-friendly living -- is now complete, and is being featured this week during the National Association of Home Builders 2011 International Builders' Show (IBS).

Linear has equipped the Idea Home with intercom and whole-house music systems, ceiling speakers and a structured wiring network, all to be viewed by thousands of builders, as well as consumers, via on-site and virtual tours.

The Linear products featured:

**Structured Wiring Connectivity Components** – Linear's advanced wiring, video and telephone hubs and a grid-style enclosure are the backbone of the home's entertainment and communications systems. Linear's devices create a convenient network for streaming content to TVs and other electronic devices in every room.

**Telephone Interface Hub** distributes up to four telephone lines to as many as 12 telephone locations via RJ-45 jacks; multiple hubs also can be connected.

**Bi-Directional Video Hub** amplifies incoming video signals and outputs to up to eight TVs; handles cable, DVDs, satellite receivers, VCRs and in-home cameras.

**DMC-10 Intercom System** – The Intercom blends advanced and standard features with plug-and-play ease of installation. Packed with capabilities like Do-Not-Disturb and hands-free reply, the system will enhance daily communication for the Idea Home's occupants.

**Encore Digital Audio Distribution System** – Linear’s affordable, whole-house music system, available in a 4-audio source/4-zone Kit (expandable to 32 zones), provides crisp-sounding, 24-bit technology; a powerful 50 watts per channel per zone; a local source input that supports portable MP3 players; in-zone bass, treble and other audio controls; and, single CAT-5 wiring for quick and easy installation.

**WG Series Ceiling Speakers** – These flush-mounted, 100 or 150-watt, two-way speakers have horn-shaped speaker baffles, 6 ½” Kevlar cone woofers and 1” asymmetrical aluminum dome tweeters for superior sound dispersion.
