## Copper Cop is Ideal for:

- Schools
- Places of Worship
- Single-Story Retail Buildings
- Cellular Network Facilities / Towers
- Remote Communication Centers
- Substation Outbuildings

Thieves want the recyclable copper and other metal parts of your HVAC units and exterior machinery... Copper Cop safeguards your HVAC units from theft and destruction!

---

**Metal theft has increased by 81% since 2008, with copper being stolen more than any other metal, according to the National Insurance Crime Bureau.**

---

## Field-Proven, Effective Theft Deterrence

- Installs quickly on HVAC unit exterior by any Security contractor – no need to pay an electrician or plumber
- Bright yellow cable harness acts as a *visual deterrent* to would-be thieves
- Connects to your existing security system or nearly any independent alarm/siren apparatus
- Does not trigger a false alarm, even if fluctuations in refrigerant pressure or electrical power outages occur
- Accepts hard-wired alarm system connection or wireless alarm transmitter

**Copper Cop** Cable Harness  
& Interconnect Box

## Cut Your Risk

Don't risk higher insurance premiums due to theft, or, the loss of potential goods, business and equipment by the lack of A/C while a new system is ordered and installed.

## Copper Cop guards against:

- Employees being inconvenienced by business closure
- Loss of perishable items (food products, anything that cannot stand excessive heat/cold)
- Damage to sensitive computer equipment or systems due to excessive heat

## Copper Cop

Tamper-Resistant Alarm  
Interconnect Box
