

### VM179 12-INCH AIR-DRIVEN TURBO BRUSH COLOR CHANGE

Beginning in Q2 2006, the Model VM179 12-inch Air-driven Turbo Brush will be phased out and replaced with the Model VM179B 12-inch Air-driven Turbo Brush. The brush is identical in functionality, but is black instead of gray. This change will be rolled in as stocks of the VM179 are depleted.

The Model VM179B 12-inch Air-driven Turbo Brush in the new black color is also included in the Model VM1200S Air-driven Turbo System Central Vacuum Accessory Package.
