H634 ROUTER & H638 SWITCH TO BE DISCONTINUED

The OpenHouse Model H634 Broadband Residential Gateway 10/100 Base-T and the Model H638 Ethernet Switch 10/100 Base-T data networking products will be discontinued. Stock is limited to the supply on hand. Once this stock is sold out, the products will no longer be available.

For replacement products, Linear recommends the use of any of the commonly available low-cost Ethernet routers and switches sold at nationwide computer-electronics stores.

Many of the commonly available products are the same size or smaller. They easily fit into an OpenHouse structured wiring enclosure. Order the ChannelPlus Model MB-56 Universal Half-width Grid Mounting Bracket or MB-55 Universal Full-width Grid Mounting Bracket. By using the double-sided mounting tape supplied with the bracket, the unit can be attached to the bracket. The bracket snaps into the OpenHouse structured wiring enclosure's mounting grid holes.
