

XDM46R REMOTE CONTROL DISCONTINUED

The Model XDM46R Music Distribution System Remote Control has been discontinued and is no longer available.

The remote control was sold as part of the Model XDM4600KIT Music Distribution System Kit, and also separately as the Model XDM46R Music Distribution System Remote Control.

Current inventory of XDM4600KITs in stock still contain the remote control. The stock is estimated to last throughout 2009.

After the current stock runs out, new XDM4600KITs **will not** contain the remote control. An informative insert in the new kits also advises that the remote control is not included in the kit.

For questions on availability and updated effectivity dates, please contact Rick Middleton, Linear's Product Line Manager for Communications Solutions.
