

## 2DR to 4DR Client Upgrade License

Nortek Security & Control is pleased to announce a 2-door Expansion License for e3-Series systems. This new license key will upgrade any 2-door model EXN or ACM with two additional doors' capacity, making the module capable of managing access to 4-doors in one easy step.

PART NO	MODEL DESCRIPTION
620-100782	License Only, Upgrade, 2-DR to 4-DR Client

The products listed below are compatible with this new 2-door upgrade license:

PART NO	MODEL DESCRIPTION
620-100269	2-Door ACM Module
620-100270	2-Door ACM Module with 2-Reader Bundle
620-100274	2-Door EX Node with Compact Cabinet
620-100275	2-Door EX Node with Compact Cabinet & 2-Reader Bundle
620-100279	2-Door EX Node with Standard Cabinet
620-100280	2-Door EX Node with Standard Cabinet & 2-Reader Bundle

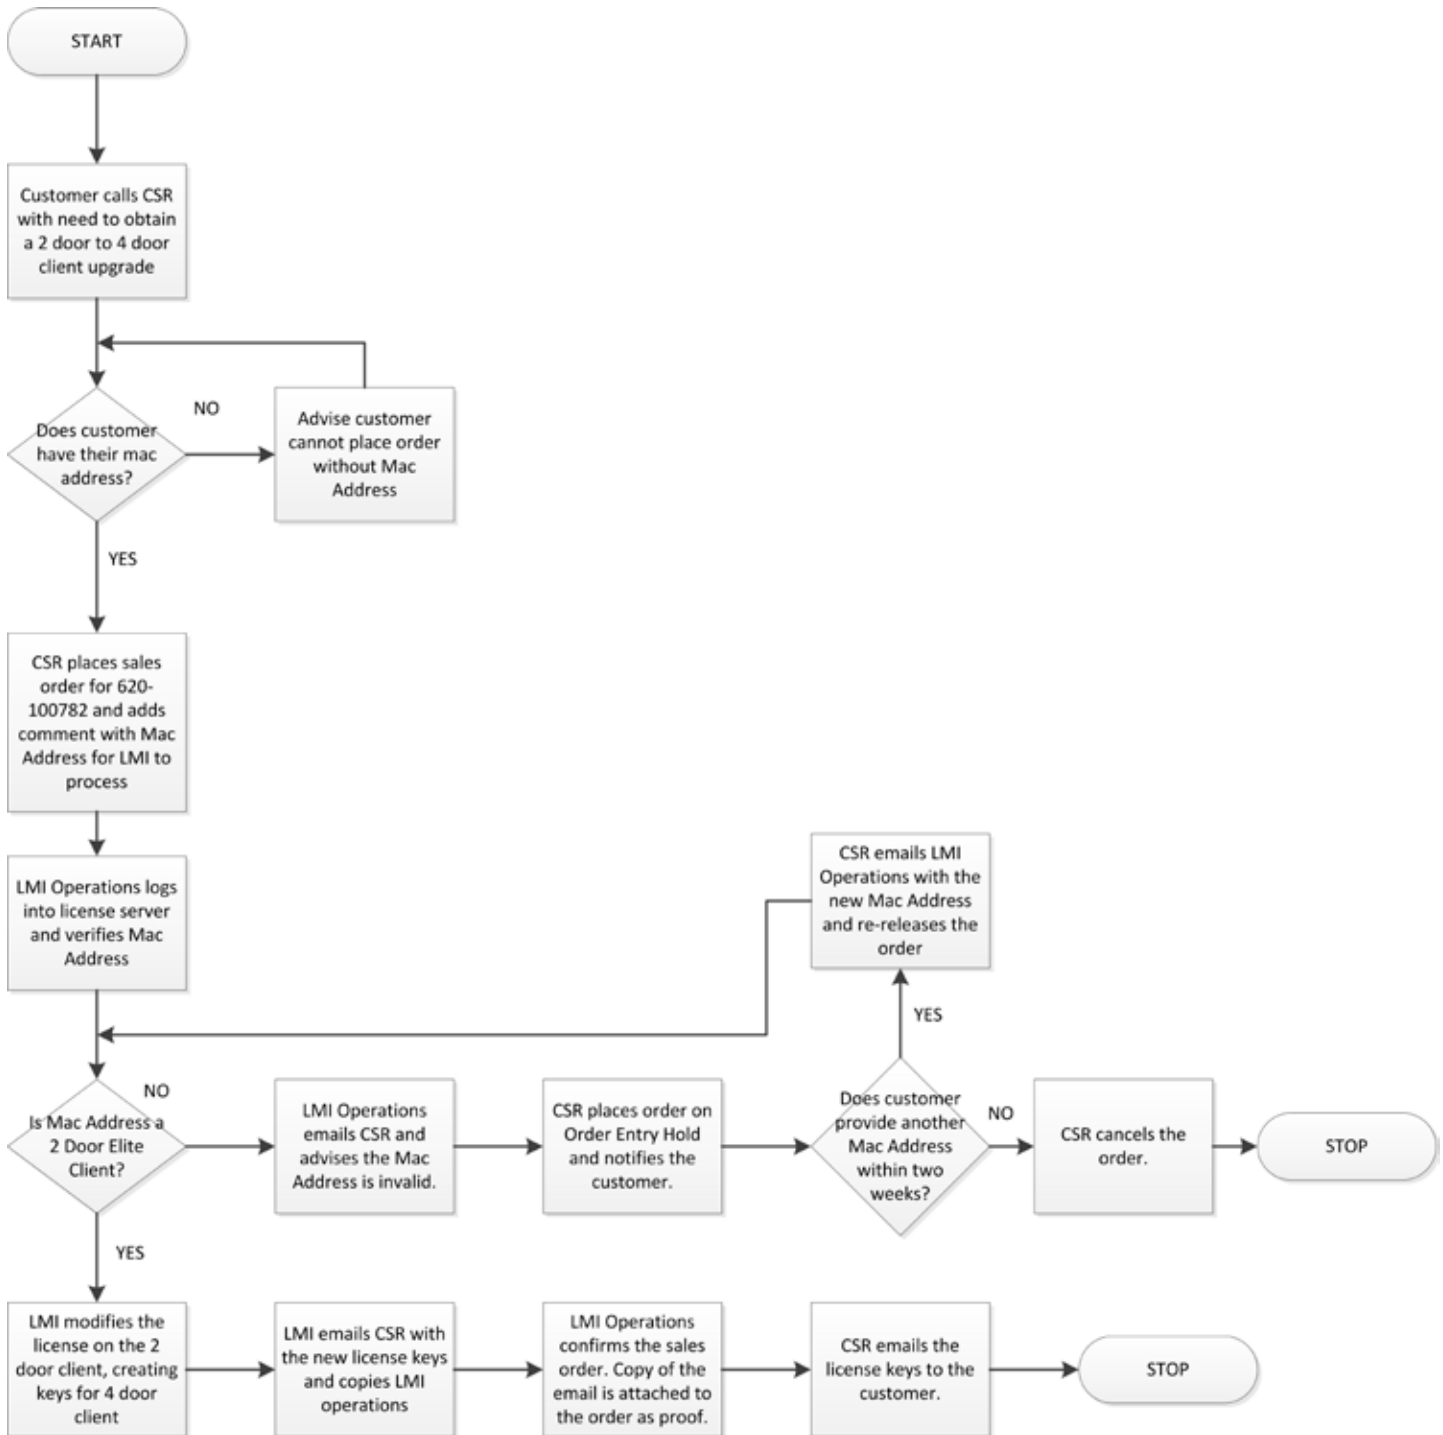

### How to order and implement the door-addition upgrade:

The process to integrate this upgrade is slightly different than other License-to-Go upgrade options. This upgrade is performed by manufacturing by taking the customers MAC address and enabling the additional doors.

**In order to process orders for this upgrade license, customers must send in the system's MAC address for the system to be updated, along with a Purchase Order containing the 2-door to 4-door Client Upgrade order number (620-100782).**

The process for integrating the door-addition upgrade is outlined in the chart on the following page:

## How to order 620-100782 License Only – Upgrade 2-Dr to 4-Dr Client

If you have any questions or customer questions please forward them along to Steve Citron at [steve.citron@nortek.com](mailto:steve.citron@nortek.com) or John La Fond at [John.Lafond@nortek.com](mailto:John.Lafond@nortek.com), and we will be happy to assist.

Thank you,

Nortek Security & Control / Integrated Systems Product Team
