

## **Linear Introduces Day/Night Cameras**

### ***Compatible with Commercial and Residential Telephone Entry Systems***

CARLSBAD, Calif. (January 1, 2009) – Linear LLC, an innovator in telephone entry system, access control, and door and gate operator products, is pleased to introduce the CCM-1A and CCM-2A color camera accessories for its commercial and residential line of telephone entry systems. These cameras include new features that will add performance and value to Linear's feature-packed product lines.

The CCM-1A and CCM-2A are day/night cameras that will capture images with great detail in not only well-lit environments, but also in low-light conditions. In daytime, the CCM-1A and CCM-2A will provide a full-color image and a black-and-white image in low-light periods, such as dusk or dawn.

In addition to the new day/night feature, the CCM-1A and CCM-2A operate over a wider temperature range than their predecessors.

The CCM-1A is compatible with Linear's AE-100, AE-500, AE1000Plus, and AE2000Plus Commercial Telephone Entry Systems, and the CCM-2A is compatible with Linear's RE-2SS and RE-2N Residential Telephone Entry Systems. Both camera models are fully backward compatible with their predecessors and are suitable for upgrading currently installed Linear telephone entry systems. The CCM-1A and CCM-2A are available for immediate delivery.

### **About Linear LLC**

Linear LLC is a pioneer in engineered radio frequency (RF) products and is a major supplier of wireless residential security systems, access control, intercoms, garage door operators, gate operators, short- and long-range radio remote controls, and personal emergency reporting systems. In recent years the company, through acquisition, has expanded into a wide range of consumer electronics, including whole-house audio/video distribution systems, central vacuum systems, music/communications systems, speaker systems, and structured wiring systems.
