FOR IMMEDIATE RELEASE

Linear Expands eMerge Dealer Support With Professional Services Capability

*Resellers Now Able to Deliver More Customized
Security and Packaged Solutions*

Carlsbad, Calif., (January 19, 2010) -- [Linear LLC](#), a recognized leader in access control and security solutions, announced today that a suite of [new Professional Services](#) is immediately available to authorized resellers of its [eMerge](#) integrated security access products. Dealers can now increase their scope of services by offering more customized and packaged solutions quickly and cost effectively.

eMerge Professional Services are categorized by Cardholder Data Migration, System Configuration, and Full System Staging. All are supported with diagnostic trouble-shooting, application training and web-based installation support.

Besides physical security, IT administrators are assuming responsibility for sophisticated video monitoring, multi-level user identification protocols, badging, threat level management, HVAC monitoring, and fire and safety control, among other concerns. Combining these technologies into the access control arena requires higher levels of system integration skills, Internet protocol knowledge and physical network expertise.

“Linear’s Professional Services engineers will help eMerge resellers quickly identify and resolve network integration challenges to deliver access control and security solutions that meet their customers’ growing expectations,” says Gary Baker, Linear vice president of marketing.

“eMerge dealers now have an additional competitive advantage by leveraging our professional services.”

For more information about Linear’s eMerge products and Professional Services capabilities, contact John LaFond, Director of Sales at 508-272-3622 or via e-mail at johnl@linearcorp.com. Additional information about eMerge is available at www.ieib.com.
