

Live healthier longer

Stay Free, Active and Protected at Home and On-the-Go

Most personal emergency response solutions require you to push the button. When it comes to being confident and maintaining independence, personal alert systems are just the beginning. Numera Libris is the first all-in-one mobile health, wellness and personal safety solution. Libris has the most advanced automatic fall detection, built-in GPS, and ability to collect and share personal health measurements. Libris is proactive and summons help even when you can't.

- **Mobile on the largest cellular network** – Works both inside and outside the home
- **The most advanced fall detection** – Detects falls with the utmost accuracy and minimized false alarms
- **Connects with medical devices** – With two presses of the button, connects wirelessly with a variety of devices: oximeter, blood pressure, glucose sensors etc.
- **Enables you to track your health & wellness** – Health data is uploaded via Numera Libris to the Numera EverThere web tool, easily accessible from any smart device
- **Auto-emergency aware everywhere** – Designed to alert your monitoring center that you've fallen even if you can't, including when you are out and about
- **More than an alert** – Health and activity tracking options are available, such as location services to help find you if you cannot respond with your location.
- **Unobtrusive** – Wear discretely on a belt, or around your neck on a lanyard
