# Connected and Reliable

You can live in your own home independently, secure and free from worry. Assistance is there when you need it – day or night – with a Personal Emergency Reporting System (PERS) from Linear, the manufacturer known for quality and innovation in PERS systems and accessories.

Be like thousands of other American seniors who enjoy an independent lifestyle with the help of an emergency system at your fingertips. This simple to use, yet sophisticated emergency alarm and notification system lets you live the life you choose to lead.

# PERS Package for You

## Household Transmitters

**DXS-54** IR Motion Detector – Supervised, battery-powered passive infrared sensor detects motion in its field of view. The transmitter sends a digitally coded wireless signal to the PERS Console.

**DXS-65** Emergency Alarm Transmitter – Supervised, battery-powered transmitter features a large, easy-to-find HELP button. Pressing the button activates the transmitter and sends a digitally coded, wireless signal to its companion receiver.

**DXS-73** Smoke Detector – Supervised, battery-powered transmitter sounds a loud local alarm when smoke is detected. Twenty seconds after sounding, the built-in transmitter sends a digitally coded, wireless signal to its companion receiver.

**DXS-80** Carbon Monoxide Detector – Supervised, battery-powered transmitter provides a warning to alert against both the acute and chronic effects of carbon monoxide (CO) poisoning.

**DXS-31** Universal Door/Window Transmitter – Supervised, battery-powered transmitter with a magnet for mounting on a door, drawer, refrigerator door, or any moving object that is used by the subscriber regularly.

**Just Press the Button**

The PERS Console, designed for tabletop use and for bedside placement, features an illuminated HELP button. Press either the wearable personal transmitter or Console button to receive assistance.

**Get Immediate Contact**

The Console receives your signal and immediately and automatically places a call to the Emergency Monitoring Center.

**Say What You Need**

A trained professional at the Emergency Monitoring Center talks directly to you to assess the help you need, and will stay on the line until assistance arrives.

**Get the Help You Specify**

Depending on your situation, the Emergency Monitoring Center professional will call the designated person you specify, whether a family member, friend or neighbor, or emergency personnel.

**Personal Transmitters**

**DXS-LRC** Convertible Long-Range Transmitter – Supervised one-button, one-channel, long range transmitter. Battery-powered, miniature, water-resistant. Two color activation indicator. Includes mounting accessories for wristband and adjustable lanyard with breakaway release.

**DXS-LRP** Long-Range Pendant Transmitter – Supervised one-button, one-channel long range transmitter. Appealing lightweight 'jewelry' design. Includes adjustable lanyard with breakaway release. Battery-powered, miniature, water-resistant.

**DXS-LRW** Long-Range Wrist Band Transmitter – Supervised one-button, one-channel long range transmitter. Battery-powered and water-resistant. Lightweight "wristwatch" design; adjustable band fits wrist sizes from petite to large; compatible with after-market wrist-watch replacement bands.

PERS-4200 connects to your home telephone line, or can use cellular phone networks if needed. With the push of a single button, it automatically places a call to trained professionals for help whenever you need assistance, any time of the day or night.

**Simple to Use**

- The wireless transmitter functions like a single-button TV remote that can be worn, or placed nearby. Once activated, your call will be answered by a trained professional.

**Personal and Programmable**

- PERS responds to emergency services and family members of your choosing, and can pre-select those people you need to respond in specific situations: family members, neighbors, friends or appropriate rescue personnel.

**Versatile**

- PERS is outfitted to meet your needs and lifestyle. Choose from a variety of wireless transmitters, including neck pendants, keyrings, handhelds, belt clip and wristbands. The transmitter is completely water-resistant, so you can even wear it in the shower.

**Dependable**

- PERS equipment is listed as a home healthcare signaling device by Underwriters Laboratories (UL), the trusted resource across the globe for product safety certification.

**Original**

- Linear, one of the pioneers of Personal Emergency Reporting Systems (PERS), is the leading manufacturer of systems offered by independent PERS providers across the country. The company has a well-earned reputation in the radio frequency (RF) or "wireless" approach to alarm signal transmission.

## PERS-4200

### Personal Emergency Reporting System

The compact, easy-to-use design of Linear's PERS-4200 makes it usable practically anywhere in the home. The table-top console provides pushbutton emergency assistance to anyone who desires security and peace of mind.

#### Features:

- Best in class range of up to 1,000 ft. with long range transmitters.
- Upgradable to UMTS-3G Cellular at any time
- Family can talk to you on speakerphone, even if you can't get to a phone or pendant
- Illuminated "HELP" button on console *(Braille labels provided)*
- "CANCEL" button stops emergency reports from being sent in accidentally
- Built-in 24-hour back-up battery for power outages
- UL-listed
- Powerful speaker for whole-home coverage
- Personal transmitters are water-resistant for use in shower, garden, etc.
- Works with Linear home security transmitters
- Voice commands available in English/Spanish or French language prompts *(French available via firmware)*
- System includes a Console temperature monitor for high/low temperature alerts
- Enhanced passive alerts summon help, even when you can't press the transmitter or Console button

*The PERS-4200 is compatible with Linear's existing and future generations of PERS Consoles and alarm panel systems.*

#### Accessories:

**Optional UMTS-3G (Cellular Communication) Module** (future availability)

**Optional Wireless Remote Speaker/Microphone Module** (future availability)

#### Signaling Equipment Listing:

UL per Standard 1637, Home Healthcare Signaling Equipment

*Two new add-on modules and new capabilities – give PERS dealers and homeowners more convenience and performance.*
