Addendum

Product Affected: prox.pad / prox.pad plus
Condition: Outdoor Installations

When mounting the prox.pad or prox.pad plus in a moisture related environment, please be sure to use the provided foam gasket. This will help to keep water from entering the case through the backplate.

To install:
Step 1. Locate the prox.pad (plus) back plate.

Step 2: Locate the provided foam gasket, and remove the paper backing. Adhere the gasket to the exterior of the prox.pad (plus) backplate.

Note: The installation of this gasket is not required for UL compliance
