## FREQUENTLY ASKED QUESTIONS

### Q. What is required to set up a system on the Uplink Home Automation service?

A. To set up a system on the Uplink Home Automation service, you will need a 2GIG Go!Control security panel with the version 1.13.1 firmware or later and the new Uplink cell radio (2GIG-GC3GUP-U).

### Q. How do I sign up as an Uplink Home Automation Services dealer?

A. Potential dealers can contact either Uplink OR their local 2GIG representative. To contact Uplink call 888-9-UPLINK (888-987-5485) or visit [www.uplink.com](http://www.uplink.com) to start the new dealer registration process. Once dealers are signed up, they can order Go!Control panels and Uplink 3G radios from their local distributors.
