

Medium Duty CDO Model Changes

We are discontinuing the medium duty Commercial Door Operator models MD, MJ, and MH.

These will be replaced by models:

06-20000 MGJ 1/2 HP 115V 1PH MED DUTY JACKSHAFT \$727.68 List

01-20999 MR-51 1/2 HP 115V 1PH MED DUTY TROLLEY \$528.66 List

The MT will now use the same rails as the rest of our commercial line.

There will not be a medium duty hoist available.

Pricing on the new models will remain the same as the MD and MJ.

Remaining and final inventory as of 1-19-2018 is:

MD5011S 28 units

MJ5011S 78 units

MH5011S 4 units

The new units will be manufactured and shipped by our New York facility.

This commonality of rail interchangeability and one shipping location should be good for everyone!
