

## NORTEK CONTROL PRODUCT BULLETIN

### Mighty Mule® MM9545M to MM9555M transition

---

Starting Feb 1, Nortek Control will be discontinuing the Mighty Mule® MM9545M and replacing with the model MM9555M.

AFFECTED SKU		Description	Reference (customer marketing name)	New UPC barcode number
OLD	NEW			
MM9545M	MM9555M	Smart 1 1/4 HPe DC Motor Belt Drive w/Three LEDs and Battery Backup		0 90835 14918 0

The only difference in appearance will be the new Nortek Control logos on the box art, the manuals, and other printed materials in the product. All affected models also get new UPC barcode numbers.

Functionally, all models will be identical to the most recently released models, including the latest firmware updates that remove the “beam off” feature launched in Dec 2020.

All backlog and new orders will be automatically switched over to the new models as the 800 are exhausted and new products is available.

Please contact your Sales manager or customer service if you have any questions.
