### SecureNet Technologies Announces Support for Best Selling 2GIG GC2 Security & Home Control System

**Lake Mary, FL – April 4, 2016** – SecureNet Technologies, a market-leader in security-centric IoT solutions, today announced their support for Nortek Security & Control’s popular 2GIG® GC2 security and control system. SecureNet technologies’ support for 2GIG GC2 will deliver dealers access to a smart home and security software solution that offers exclusively-branded web portal and smartphone applications. Further, SecureNet’s “always on” technology means their customers will benefit from lightning-fast response and control of both security system and smart home devices. 2GIG is one of the industry’s most popularly-installed home control systems, now proven in 3 million homes. 2GIG makes it quick and easy for security dealers to install security monitoring systems, as well as to easily add RMR-enhancing smart control and automation products to every installation.

“We are tremendously excited with our new Nortek Security & Control relationship,” said Andrew Wilson, CEO of SecureNet Technologies. “Our dealers and their customers will now benefit from access to the most widely installed security and control panel, powered by our proven and innovative software platform. The SecureNet platform delivers a professional and easy-to-use experience which results in higher customer retention and hence growth potential for our dealers.”

“SecureNet’s support for our flagship 2GIG security and control system enables us to offer a wider breadth of solutions to the security channel,” said Mike O’Neal, president of Nortek Security & Control. “We are very pleased to have SecureNet’s platform added to our offering as a solid, proven technology offering that competitively enhances our overall security and home automation offerings to dealers.”

SecureNet firmware will be available on April 20, 2016. 2GIG’s *Easy Updater Tool* enables installers to easily upgrade the firmware on existing 2GIG GC2 panels to the required SecureNet Technologies firmware, providing them the full array of SecureNet’s customized applications

#### **About SecureNet Technologies**

SecureNet’s SaaS interactive security, home control and video monitoring platform, provides our partner companies the ability to increase service value, enhance customer retention and create additional RMR.
