Compatibility:

Replacement models are functionally 100% compatible with the older models unless otherwise noted

SKU specific notes:

- ¹ Other Image Sensor models are available that may have additional requirements. Contact NSC Support for further details.
- ² Replacement listed is an option that requires additional FW updating to enable language support. Contact NSC Support for further details on this available option to determine if this option is a suitable solution.
- ³ Replacement listed is a security panel only. Original item was a KIT SKU. Additionally, a Securenet Radio is required. Contact NSC Support for further details to determine if this option is a suitable solution.

Impact on Form, Fit, Function, Quality, and Reliability:

- There is no impact on quality or reliability.
- Little or no change to functionality
- Fit should be used in same format as the replacement item
- Possible enhancement or upgraded to more current standards. See exact specifications for the replacement item listed or contact Nortek Support for more information.

Reason for Change:

SKUs listed above may not have components supported to continue. Additionally, affected SKUs listed may have been replaced with newer models with added functionality or features.

Important notes:

- Customers may place a last order per the End-of-Sale Effective Date in Table 1 where inventory is available
- NSC will no longer accept customer orders with a customer requested delivery date beyond the Last Ship Date.
- All orders are subject to acceptance by NSC and are limited to quantity on hand.
- Customers with ongoing and/or project-based requirements for SKUs listed in this announcement should contact their NSC sales representative to discuss possible alternative solutions.
- If you have any further questions about items listed in this End of Sale announcement, please contact your NSC sales or support representative or NSC PLM team.

Thank you very much for your continued business.
